

CALOMEL SALIVATES AND MAKES YOU SICK

Acts like dynamite on a sluggish liver and you lose a day's work.

There's no reason why a person should take sickening, salivating calomel when 50 cents buys a large bottle of Dodson's Liver Tone—a perfect substitute for calomel.

It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not salivate.

Children and grown folks can take Dodson's Liver Tone, because it is perfectly harmless.

Calomel is a dangerous drug. It is mercury and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tone instead and you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you don't find Dodson's Liver Tone acts better than horrible calomel your money is waiting for you.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts thru the Blood on the Mucous Surfaces of the System thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, Ohio. Sold by all Druggists, etc.

been able to get a list of the delegates from this county who are in actual attendance. The list selected was published two weeks ago and most of these are there, tho some did not go. From information we have it appears that fifty or sixty from this county attended the annual meet.

An order was placed Wednesday with the Southern Seating & Cabinet Co., of Jackson for seats for the new Methodist church now in course of building. The order is for solid oak pews of the very best type and finish and calls for an expenditure of \$1213. Seating is provided for the main auditorium, the Sunday School rooms and the gallery the latter being seated with the pews which were taken from the old church. The new pews are to harmonize in finish with the interior of the church.

Plans are making for transforming the old brick livery stable at the northeast corner of the square into a modern and well equipped moving picture auditorium. The property is owned by Dr. C. W. Robertson who informs us that plans are being worked out by an architect for the change in the building which will make it, when completed, in effect, a new building. Every thing needed for a first class movie show will be installed, including its own electric lighting system, so that the show can operate day or night.

FOR SALE—Several small farms, terms one half cash, balance on terms. L. N. Carter.

W. D. Scruggs of Nashville was in Somerville last Saturday. He is pretty busy at present campaigning in the interest of his candidacy for secretary of state which office will be filled by the legislature when it meets in Nashville next January. Mr. Scruggs tells us that, while all things are uncertain in politics, he feels that his chances for election are good. He has already received the indorsement of this, his home county, and the representative in the legislature, Hon. F. R. McRee, will give him his support.

A number of the Mexican boll weevils which has wrought such destruction to cotton thruout the Southwest in the past ten or fifteen years were brought to Somerville Monday by County Agent J. W. Moffatt. They came from a cotton field near Rossville, and if reports which have been very persistent for several weeks are true these little pests are already pretty numerous in several parts of the south end of this county. It is reported that cotton is being much injured this year by the pest and that the yield will be reduced considerably in many sections of the south end of the county. The weevil is a stranger to most people here, but several men who claim to have seen them in the southern territory say there is no doubt about those brought in by Mr. Moffatt being the genuine Mexican cotton boll weevil.

I can secure a few more loans on farm lands. Some closed in past ten days. Only a limited amount, so apply at once. L. N. Carter.

J. S. Taylor who lives five or six miles from Somerville toward the northeast informs The Falcon that last Monday another airship was seen passing over the vicinity of his home. This is the third time that citizens in that vicinity have seen an airship passing over. Two years ago was the first, last fall was the second and Monday was the third time. Each of the machines was going in a northerly course and was high above the earth. The explosions of running engine attracted attention of numerous parties and, according to Mr. Taylor, several persons saw the craft plainly and were able to get a fine view of it. Going north along such a line as to pass over Mr. Taylor's community an airship would pass several miles east of Somerville and we would like to know if people living in other parts of the county saw or heard it.
